- Equipment and commercial architecture
- Institutional communication
- Handicap and elderly
- Building and construction
- Multimedia and software

* *Obligatory field*

*** Description of the designer's intervention / role on the project**

*** Description of the original design brief and of the project context**

*** Advantages of the product for the company**

- Not applicable to the product
- Safety
- Decrease of manufacturing costs
- Decrease of system / logistics costs
- Decrease of distribution costs
- Decrease of storage costs
- Decrease of maintenance costs
- Improvement of the manufacturing process
- Gain in productivity
- New market share
- Access to a new market
- Image and corporate communication

*** Description of the advantages of the product for the company**

** Obligatory field*

*** Advantage of the product for the user**

- Comfort of use
- Pleasure of use
- New ergonomics
- Ease of use
- Safety / hygiene
- Time gained in the product use
- Adressing a new need
- Creating a nex concept

***Description of the advantages of the product for the user**

*** Innovation in the choice of materials**

- Does not apply to the product
- A new use of the material
- Safety
- Mechanical performance
- Reducing manufacturing costs
- Use of a new material
- sensorial pleasure

*** Description of the innovation in the choice of materials :**

** Champ obligatoire*

*** Advantages of the product for the environment**

Does not apply to the product

Reduction of the energy consumption

Stages concerned with the improvement

Raw materials Manufacturing

Packaging Use

Logistics /transport End of life

Reducing the quantity of refuse

Stages concerned with the improvement

Raw materials Manufacturing

Packaging Use

Logistics /transport End of life

Use of recycled materials

Stages concerned with the improvement

Raw materials Manufacturing

Packaging Use

Logistics /transport End of life

Increase in product lifespan

Increase in the effectiveness of the product

Other

***Can you quantify the environmental gain(s) obtained compared to a reference product of your choice?**

- No
- Yes, describe (with gain percentage)

***Is there any communication on the environmental improvements ?**

- No
- Yes

(please include relevant commercial publication)

** Obligatory field*
